## SUMMARY

I am a Full Stack web developer proficient in React, Node, and Express. I have 4 years of Computer Science experience, which allowed me to develop my skills in Java, Javascript, and PostgreSQL. I am excited to be a part of a team to collaborate on the next generation of web applications.

## SKILLS

### Front-end

- JavaScript ES6
- React
- React Hooks
- Redux
- Express
- jQuery
- HTML5
- CSS3

### Back-end

- Node.js
- MongoDB
- PostgreSQL

### Additional tools

- Mocha
- Chai
- Jasmine
- Karma
- Webpack
- Browserify
- Git
- Heroku
- Enzyme

### Additional skills

- RESTful APIs
- Unit testing
- Algorithms
- Data structures
- Node Package Manager (NPM)
- Java
- C
- Assembly
- Python

## PROJECTS

### Crudhub

**January 2020**

- This is a web app that takes the user's food inquiry and returns recipes as well as restaurants that offer that food using the Edamam API and Google Places API.
- Created so that users can see what options they have between restaurants and recipes to decide
- Built so that the app is able to get the users general location to find restaurants close to them.
- Built using Javascript/ JQuery/ CSS/ HTML.

### Showtunes

**May 2020**

- This is a web app that allows the user to either create a new playlist by choosing a name, genre, and runtime for the playlist the app then creates a random list of songs that runs for the specified time.
- Created so that the user can find new music by randomizing the songs returned, perfect for long car rides or gym visits.
- Built using Javascript/ JQuery/ CSS/ HTML/ React/ PostgreSQL/ Node/ Express.

---

## QuizBowl

**June 2020**

- This is a web app that allows users to create quizzes for other people to take. Quizzes are allowed to be up to 20 questions on whatever topic the user would like.
- Created using UUIDs so any quizzes set to private will only be accessible by the link provided on creation.
- Built using Javascript/ JQuery/ CSS/ HTML/ React/ PostgreSQL/ Node/ Express.

---

## EDUCATION

---

### Thinkful

**2019 - 2020**

*Full Stack Flex*

- This program has given me industry best practices in a hands on 5 month web development course.

### Nassau Community College

**2017 - 2019**

*Associates in Computer Science*

- Mobile-app development
- C programming
- Java programming
- Assembly
